Species recording

Location and date of sighting:

Where did this sighting occur:
(e.g. site, address, road name, area?)

Postcode:

OS Grid Reference
(if known):

Record Date:

JARG in conjunction with Jersey's Biodiversity Partnership has set up a recording database. Recording wildlife provides us with continual monitoring of the species found in Jersey. The records establish the distribution of species throughout Jersey, which help us to focus our conservation efforts where it is needed most.

Recorder Details:

Name & Address:

Email:

Telephone Number:

Can we contact you if necessary ? Yes No

Important: By submitting information on this form, I agree that it may be collated and disseminated manually or electronically, including the internet, for environmental decision-making, education, research and other public benefit uses in accordance with the data protection law.

What was seen and where:
